Grand State Lottery OF PENNSYLVANIA.

THIS valuable Scheme, the product of which is to be applied to the purpose of opening a communication between the *Western* and *Atlantic* portions of our state, by Canal, &c. cannot fail to interest every individual, who owns, or expects to own, an acre of land therein. When a certain sum, by this Lottery, shall have been raised, the Governor is empowered to subscribe, on the part of the Commonwealth, $ 150,000 Dollars, to further the views of this undertaking. It therefore behooves each person, who has the welfare of our State at heart, to encourage the *work*; and whether the ticket he may purchase will be entitled to a prize or not, the *object* for which he subscribes is of more importance to him, than the sum he may advance for the purchase of *even 20 tickets.* The subscriber has transmitted several schemes, to be placed in the different Inns of Pittsburgh, to which they will be pleased to refer. It may be however necessary to mention, that the highest prize, (the last drawn number) is

40,000 Dollars,

and that from the commencement of the drawing until the finishing, a stationary prize of $ 500, $ 1000, $ 2000, $ 5000, $ 10,000 and $ 20,000, will DAILY entitle the last drawn number, to one of these prizes.

It is needless, certainly, to remind our *western friends*, of the immense importance of a free and cheap communication from their district of Pennsylvania, to those of the sea-board: *we* export *their* produce. Let us, therefore, by a combined exertion, form a channel, through which their *industry* will receive a good market, and we, in a period of prosperity, turn it to advantage.

Letters, *post paid*, enclosing the notes of any western banks received in payment. Application to many of the most respectable characters of Pittsburgh will satisfy purchasers as to my correctness.

Tickets in the different Lotteries of the State can be obtained at my Office, and those of *Maryland*; and MY BRETHREN are particularly requested to call upon me for the *Masonic Hall of Baltimore*. I have also, those of the *Lancaster Church, African Church* of this City, *Wilkesbarre Meeting House*, &c. and *Massachusetts* and *New-York*, for Sale Commission Business done, as well as Stock, Bank, &c. HARTFORD CONVENTION.

The Convention of Delegates at Hartford adjourned on the 4th inst. after making public a pamphlet of reasoning and preamble, of which the following resolutions are the conclusion:

Resolved, That it be and hereby is recommended to the Legislature of the several States represented in this Convention, to adopt all such measures as may be necessary effectually to protect the citizens of said states from the operation and effects of all acts which have been or may be passed by the Congress of the U. S. which shall contain provisions, subjecting the militia or other citizens to forcible drafts, conscriptions, or impressments, not authorised by the Constitution of the U. S.

Resolved, That it be and hereby is recommended to the said Legislatures, to authorise an immediate and earnest application to be made to the government of the U. S requesting their consent to some arrangement, whereby the said States may, separately or in concert, be empowered to assume upon themselves the defence of their territory against the enemy; and a reasonable portion of the taxes, collected within said states, may be paid into the respective treasuries thereof, and appropriated to the payment of the balance due said states, and to the future defence of the same. The amount so paid into the said treasuries to be credited, and the disbursements made as aforesaid to be charged to the U. S.

Resolved, That it be and hereby is recommended to the Legislatures of the aforesaid states, to pass laws (where it has not already been done) authorising the Governors or commanders in chief of their militia to make detachments from the same, or to form voluntary corps, as shall be most convenient and conformable to their constitutions, & to cause the same to be well armed, equipped and disciplined, and held in readiness for service; and upon the request of the Gov'r of either of the other states to employ the whole of such detachment or corps, as well as the regular forces of the state, or such part thereof as may be required and can be spared consistently with the safety of the state, in assisting the state making such request to repel any invasion thereof which shall be made or attempted by the public enemy.

Resolved, That the following amendments of the constitution of the U. S. be recommended to the states represented as aforesaid, to be proposed by them for adoption by the state legislatures, and, in such cases as may be deemed expedient, by a convention chosen by the people of each state.

And it is further recommended, that the said states shall persevere in their efforts to obtain such amendments until the same shall be effected.

1*st*. Representatives and direct taxes shall be apportioned among the several states which may be included within this union, according to their respective numbers of free persons, including those bound to service for a term of years and excluding Indians not taxed, and all other persons.

2*d*. No new state shall be admitted into the union by Congress in virtue of the power granted by the constitution, without the concurrence of two thirds of both Houses.

3*d*. Congress shall not have power to lay any Embargo on the ships or vessels of the citizens of the U. S. in the ports or harbors thereof, for more than 60 days.

4*th*. Congress shall not have power, without the concurrence of two thirds of both Houses, to interdict the commercial intercourse between the U. S and any foreign nation or the dependencies thereof.

5*th*. Congress shall not make or declare war, or authorise acts of hostility against any foreign nation, without the concurrence of two thirds of both Houses, except such acts of hostility be in defence of the territories of the U. S. when actually invaded.

6*th*. No person who shall hereafter be naturalized, shall be eligible as a member of the Senate or House of Representatives of the U. S. nor capable of holding any civil office under the authority of the U. S.

7*th*. The same person shall not be elected President of the U. S. a 2d time; nor shall the president be elected from the same state two terms in succession.

Resolved, That if the application of these States to the government of the U. States' recommended in a foregoing resolution, should be unsuccessful, and peace should not be concluded, and the defence of those stated should be neglected, as it has been since the commencement of the war, it will be in the opinion of this Convention, expedient for the legislatures of the several States to appoint Delegates to another Convention to meet at Boston, (Mass) on the 3d Thursday of June next, with such powers and instructions as the exigency of a crisis so momentous may require.

Resolved, That the hon. Geo: Cabot, Chauncey Goodrich, and Daniel Lyman, or any two of them, be authorised to call another meeting of this Convention, to be holden in Boston, at any time before new Delegates shall be chosen, as recommended in the above Resolution, if in their judgement the situation of the country shall urgently require it.

The foregoing analysis of the item, expenditures, in consequence of the present war with G. B'n is not intended to be precisely correct in all its parts.—Indeed perfect accuracy cannot be effected until all the accounts, in relation thereto, shall have been furnished and settled, but it is believed to be very nearly so.

The payments in Pennsylvania in 1812 *and* 1813, *under the same head, may be thus classed, viz:*

1812.

Miscellaneous expenditures composed of carriage of arms, camp equipage, &c.	4,768 26

	906,537 37	

In a comparison of the revenues of 1813 with those of 1814 from the ordinary sources, the most material difference will be observed in the receipts from the auction duties. The revenue from that fund in 1814, is, however, fully equal to an average of 4 of its most productive years, prior to 1813, which corroborates the suggestion that the unusually large receipts therefrom in 1813, had arisen from peculiar circumstances.

In respect to the receipts from lands, when the interruption to business which followed the invasion by the enemy at Washington and Baltimore, and the absence in camp of the surveyor general and most of the clerks of the land department, are taken into view, the revenue from that source has exceeded expectation.

Certain militia expenses having been made payable out of the monies arising from tavern licences and exempt fines by the act of the 29th March, 1813, (since repealed) the receipts in 1814 from those funds (although less than in 1813) have also been more than had been looked for.

I have the honor to be,
With high respect and regard,
Your most obed't serv't.
GEORGE BRYAN.

LATEST FROM EUROPE.

We have received, by way of Halifax and Castine, a few London dates to Nov. 3, six days later than before received.—The intelligence is not important. The principal articles relate to the embarkation of more troops for America. The very large proportion of the British forces which are to be employed in prosecuting the war in this country, indicate not only that the British government have little expectation of peace, but that they have little apprehension of adverse events on the continent.

The London editors profess to have received letters from Ghent to Oct. 29, at which date they say that our commissioners were preparing to return to America. It may be remembered that the latest dispatch from them to our secretary of state, lately published, and the last note of the British ministers enclosed in that dispatch is dated October 31. The London editor, therefore, not only knew nothing about the state of the negociation, but his intelligence from Ghent was not so late as ours. It should be remembered, while perusing the speculations in English papers on the American negociation that no part of the official correspondence, from the commencement, had been, at the last dates, published in Europe.

It appears from a London article, that the Norwegian diet did not readily agree to the stipulation of Prince Christian for delivering the kingdom to Sweden. The deputies from Bergen and some others, were opposed to submitting to the terms. In consequence, the army of the Crown Prince had advanced into Norway.

The fleet which lately sailed from Cork for America, in consequence of some damage, in which the baggage of the 40th regt. was lost, put back, and the 40th was ordered to be exchanged for the 28th regiment

LONDON, *October* 29.

AFFAIRS WITH AMERICA.

Government has at length come to the resolution of prosecuting the war with the utmost vigour in America; our army there will be on the grandest scale. Not only Sir George Prevost, but most of the senior officers come home immediately.

The disembodying the militia is stopped, and all our disposable force will, without loss of time be sent out to America; even cavalry is mentioned with a large force of artillery.

The arrangement for the present is said to be that Major Gen. Kempt with rank as Lt. Gen. shall command in Canada, and Major Gen. Packenham, as Lt. Gen. shall command the coast and detached armies. Most probably a commander of great name will, 'ere long, go out to command in chief.

Nov. 3.—The convoy bound to America, sailed from Plymouth Sound on Wednesday last, under the protection of the Vengeur, 74 guns, Cormorant and Ceylon, the wind having come round to the east on that morning, after having been detained nearly three weeks. We understand there are about 3000 troops in the fleet, among which are some cavalry. The convoy stood down channel with a stiff breeze, as did the convoys for Cork and Bordeaux, and the Mackarel schr. for America, charged with important despatches,

From the New-York Gazette, Jan. 4.

Capt. Bolton, of the schr. Thetis, from St. Barts. informs, that Martinique and Guadaloupe had been given up to the French.

By the schr. Thetis, arrived last night from St. Bartholomews, the editors of the New-York Gazettee have received a file of the London Morning Chronicle to the 1st Nov. inclusive, from which the following articles are copied:—

SUMMARY.—Paris papers of the 29th of October state, that Poland is to be placed under the dominion of Russia, the Grand Duke Constantine being nominated Viceroy, with the exception of Gallicia, which is definitely to belong to Austria.

It appears that the allied powers have resolved to oppose the line of French fortresses extending from Strasburg to Dunkirk.

There is a report in the London papers, that Bonaparte is to be conveyed from Elba to England.

It was observed at Vienna, October 15, that Talleyrand would be replaced at the Congress, by another ambassador from France.

The Spanish Charge des Affaires had quitted Paris to return home.

The British troops have been withdrawn from Madeira, and the island given up to the Portuguese.

All the ancient privileges have been restored to Marseilles, and it will, in future, enjoy the advantages of a free port.

The King of France has appointed twenty censors of the press.

It is said Lord Castlereagh was about to return to England from Vienna, to be present at the meeting of parliament.

IMPORTANT RUMOUR.—A naval officer who left New-London on Tuesday evening and arrived here this morning in the mail stage, states, that on Tuesday morning a Mr. Peck came up from the British squadron and reported that, while on board the Superb that morning he was informed by the first lieut. that the U. S. frigate Constitution had sunk the British frigate Maidstone, after a long and desperate engagement. To Mr. Peck's enquiry how they had derived their information, the lieut. replied that a sloop of war (which lay at anchor near the Superb) arrived from Halifax on the preceding evening, which received the intelligence from a vessel she had boarded on her passage.

Two of the other passengers state, that they left Fisher's Island on Tuesday, and that just before their departure, a party of British seamen came on shore, and mentioned in their hearing, that the Constitution had given the Maidstone a terrible flogging."

PROVIDENCE, (R. I.) *Dec. 27.*

OUR SPANISH RELATIONS.

A letter from a respectable merchant of Havanna, to his correspondent in this town, dated Nov. 20, advises, that the government of Cuba, was about sequestrating all American property in that island, in consequence of the late measures taken by this government, against the Spanish possessions; but the question having been left to a committee, it was decided that no confiscation should take place until the pleasure of the king should be known. Despatches have been sent accordingly to court; meanwhile a general apprehension was, that the measures of confiscation would be approved by the King.

WASHINGTON CITY, *January 9.*

The National Bank bill has at length passed the House of Representatives by a commanding majority, in an amended form, which requires the Senate again to pass upon it.

January 10.

The amendments to the Bank Bill are committed in the Senate to a select committee, who, it is generally supposed, will recommend a rejection of them, or some modification which will approximate them more nearly to the shape of the original bill.

Latest from New-Orleans.

[Received at 10 o'clock last night.]

Extract of a letter from T. Johnson, Jr. Post Master at New-Orleans, dated December 17th.

"The enemy's vessels, about 60 sail, are at Ship Island, in the bay of St. Louis. They approach the city by lake Ponchartrain. Our naval force on that lake consisted of gun-boats and one small schooner; they were attacked by thirty-six of the enemy's barges, and were defeated after a severe action of an hour and thirty minutes. The enemy's loss is great—thirteen of their barges were sunk. They are now masters of the lake. To oppose their march to the city, we have but two small forts; one at the mouth of the bayou St. John. If they effect a landing, a battle must decide the fate of the city. All here have full confidence in Gen. Jackson, and I calculate on a favorable result.

The present force is 4000 regulars and militia. To this we may add, by Sunday next, Tennessee troops under General [illegible]. The other force from Kentucky and Tennessee will not arrive in time. The fleet is the same you had in the Chesapeake, and is under Adm. Cochrane. Gen. Jackson has established the most perfect order and police. He is confident he can defend the place. The movements of the enemy's force are various. Our fate will be decided before you hear from me again."

HEAD QUARTERS, NEW ORLEANS, *Dec. 14, 1814.*

MILITIA GENERAL ORDERS.

The enemy is in force in the vicinity of this State, and his movements indicate an intention to attack this Capital The Major General & Commander in Chief therefore directs that the militia within the parishes of Feliciana, Baton Rouge and the settlements of Manchac and the Bayou St. John, be held in readiness, armed, accoutred, and be drilled by companies twice in each day for one hour at each time. Officers commanding regiments and corps, will designate the ground and hour for drill. The field officers of each corps are to attend the drill, and inspect minutely the state of the arms and ammunition.

The whole of the militia must be held in readiness to march, and meet the enemy at a moment's warning, as well by day as by night.

The men should not incumber themselves with too much baggage.—— As much, a spare shirt and a pair of socks with a good blanket in their knapsack will be quite sufficient.

The several companies of ancients on this occasion set an honorable example, nor will the fathers of families belonging the fire companies be wanting in zeal.

By further orders the uniform companies will form a battalion under the immediate command of capt. Plauche.

The drill and exercise to commence to-morrow the 15th inst.

Wm: C. C. CLAIBORNE.
Gov. and Commander in Chief.

In the House of Delegates of Maryland, on Monday, January 2, Mr. John Hanson Thomas introduced the following proposition.

By the House of Delegates of Maryland.

Amidst the impending sufferings and multiplied disorders of war, brought upon the American people by their misplaced and abused confidence in the wisdom and virtue of their rulers, there has been no evil of a more alarming and fatal tendency in the contemplation of this house, than the inordinate grasp of power, and undisguised spirit of encroachment on the sovereign rights of the states and the personal liberties of the citizen, so repeatedly and unequivocally manifested in the acts of the General Government.

Under this impression, and in the maintenance of those rights and privileges, it was considered as a prompt and paramount duty on the part of this house, to evince a faithful and firm determination of purpose, the moment that intelligence was recently received of the progress of a bill in both branches of the National Legislature, whose palpable object it was to convert the free militia of these United States, into train bands and cohorts of an odious despotic force. This decision was rendered the more indignant, by a view of the gross sophistry and arbitrary pretensions promulgated in the report of the secretary of war at the commencement of the session, designed to reconcile the repugnant sentiment of the free people of this land to the principle of the several schemes and projects of invasion on their birth rights and liberties, as suggested in that report, for the acquiescence of congress.

To the sensibility of this house, thus seriously awakened by the threatened pressure of a system, so immediately calculated to make "confusion worse confounded," and to produce a direct collision of authority between the national government and the sovereignty of the individual states, it is therefore now a matter of lively gratification to learn, that the passage of the proposed bill has been eventually arrested in the senate of the U. S; and the gratification is enhanced by the circumstance, that this happy issue has been effected, at the instance of an illustrious statesman and jurist, whose opinion, worthy as it is on all subjects of the most attentive consideration, is entitled to peculiar regard on any question touching a construction of the powers imparted by the Federal constitution, because it is the opinion of a surviving member of the convention of sages and patriots, by whom that constitution was planned, and originally recommended for adoption.

Wherefore, In order more fully to display the solemn interest which the occasion has inspired throughout the community of this state, and more especially for the purpose of rendering a just meed of public applause for eminent service in the defence of public liberty.

Resolved, That the thanks of this House, in behalf of the freemen of Maryland, be and they are hereby presented to the Hon. RUFUS KING, of the Senate of the U. S. for the seasonable and successful interposition of his experienced wisdom and elevated influence of character, in averting the meditated operation of a measure hostile to the immunities of constitutional freedom, offensive to the pure genius of independence, and fraught with consequences baleful and appalling to the social order, tranquility and well being of this United Republic.

And this house would accompany the respectful tribute, which is thus specially offered, with a general expression of the grateful sense which it also entertains of the distinguished merit of the other members of the minority, who so steadfastly and ably co-operated, at every renewal of the struggle, in both branches of congress, in combatting against the insidious introduction of an authoritative conscript establishment, more specious in the form of its approach, but not essentially different from that, whose intense oppression has just banished from the continent of Europe, with its guilty author, the blood stained usurper of France.

Ordered, That the Hon. the Speaker of this House, be requested to transmit to the Hon. RUFUS KING, an authenticated copy of the present proceeding.

Whereas a Patent hath

been granted under the great seal of the United States, on the first day of December last, to Nicholas J. Roosevelt, Esq. a citizen of the United States, as the original inventor of Steam Boats as now in general use, I DO HEREBY GIVE NOTICE, as Attorney for the said Nicholas, as patentee as aforesaid, that I will prosecute all, each and every person, who under colour or in virtue of any prior patent by any person for said invention obtained; shall be found to infringe or violate the rights in the said Nicholas by the said patent vested, as well as all persons violating said rights.

THE PITTSBURGH GAZETTE.

TUESDAY EVENING, JANUARY 17, 1815.

A new arrangement in the arrival and departure of the mails to and from this place, for the year 1815, renders a change necessary in the day of publication of the Pittsburgh Gazette.

To enable us to give the earliest intelligence, we shall in future publish the Gazette on Saturday, instead of Tuesday.

We shall have it in our power by this change, to give the news that may be received by the Eastern mail of Friday evening, and the Western mail and Express from Washington City on Saturday morning—and forward the Gazette to subscribers by the Western, Erie, and Cleavland mails on Monday, and the Eastern and Steubenville mails on Tuesday morning.

Subscribers in the vicinity of this place, can have their papers immediately after 11 o'clock on the morning of publication. Town subscribers will be furnished as heretofore, on that day.

The next Gazette will be issued on Saturday, the 21st inst.

Commodore M'Donough who was on his way to Washington City, has been ordered to repair immediately to Lake Champlain.

The Plattsburgh Herald, of the 30th December, says, "It is reported, we understand, by a deserter who came in the night before last, that the British are 2 or 3000 strong at Isle Aux Noix, and have a large number of sleighs and about 80 or 90 pieces of cannon.

Also, that they have other large forces near that place, and confirms the report that they are about fitting out an expedition of some kind.

Col. Joseph D Learned, of the 80th Regiment U. S. Infantry, has been found guilty by a Court Martial of fraud and embezzlement of public monies, and dismissed the service.

In the Senate of this State, the following resolutions were offered by Mr. Biddle:—

Resolved, That a committee be appointed to enquire into the expediency of raising, by drafts from the militia, a corps of 8000 men, to serve during twelve months, for the defence of Pennsylvania and the adjoining states, with leave to report by bill.

Resolved, That the same committee be instructed to enquire into the expediency of procuring one or more steam frigates, steam batteries, or other means of defence, for the protection of the shores of the Delaware, with leave to report by bill.

Resolved, That the same committee be instructed to enquire into the expediency of borrowing a sum not exceeding one million of dollars, to be employed solely for the defence of this state, with leave to report by bill.

Read a second time and adopted.

By the Western Mail of this morning.

Extract of a letter from a friend in Gen. Carroll's life guard to the Editor of the Nashville Examiner, dated

BATON ROUGE, Dec. 18, 1814.

"SIR—I inform you that the British are at Cats Island 25 miles below New-Orleans. An express has this moment arrived from Gen. Jackson to Gen. Thomas, stating that 50 sail of British vessels are at hand. Gen. Carroll left this place this morning for Gen. Jackson, and will reach him on the 21st.

"Gen. Coffee also left this place this morning, and will reach Gen. Jackson on the 20th."

As it is at the extent not more than 150 miles from Baton-rouge to New Orleans, they would in all probability reach the latter on the 19th.

From the N. Y. Commercial Advertiser, December 31.

Why the National Intelligencer has never given the ayes and noes on the final passage of the CONSCRIPTION BILL we cannot tell. But such is the fact; and to this hour, the people know not who, among their representatives, are the friends and advocates of MILITARY DESPOTISM. It is, however, happily in our power to inform them. POSTSCRIPT.

A letter from a gentleman at Natchez to his friend in this town, dated December 28, says, "Accounts have just been received of a large force of the enemy having landed below New-Orleans, and that some fighting had taken place.—Gen. Jackson drove the enemy, and has possession of the ground. Another battle is momently expected."

GENUINE FAMILY MEDICIES.

BOSLER & Co.

Front Street, between Market & Wood Streets, PITTSBURGH,

HAVE just received from *Lee's Patent and Family Medicine Store*, New York, a fresh supply of the following

GENUINE MEDICINES.

For the prevention and cure of Bilious and Malignant Fevers is recommended

HAHN'S ANTI-BILIOUS PILLS.

The operation of these Pills is very mild, so as to be used by persons in all situations, and of every age.

They are well adapted to carry off superfluous bile, and prevent its morbid secretions, to restore the appetite, to produce a free perspiration, and thus prevent Colds, which are often of fatal consequences. A dose never fails to remove a Cold, if taken on its first appearance. They are celebrated for removing habitual costiveness, sickness at the stomach, and severe head-ache, and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured for use by every seaman.

HAMILTON'S

WORM DESTROYING LOZENGES,

Which have, within years past, cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from Worms, and from obstructions or foulness in the stomach and bowels.

This Medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age & constitution. It contains nothing but what is perfectly innocent, and so mild in its operation that it cannot injure the most delicate pregnant lady, or an infant of a week old, should no worms exist in the body; but will, without pain, cleanse the stomach and bowels, of whatever is foul, and and thereby prevent the production of worms, and many fatal disorders. The Lozenges are efficacious in taking off all gross humors and eruptions, feverish complaints, and the safest and mildest purgative that can be used on any occasion.

A dose of this medicine given occasionally during the warm season, will prevent "the vomiting and purging of children"—a disorder which annually destroys thousands of the infant part of our citizens. It is also the mildest and most certain remedy known, and has restored to health and strength a vast number when in advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance and a mild taste.

HAMILTON'S ESSENCE & EXTRACT OF MURTARD,

A safe & effectual remedy for rheumatisms, gout, palsey, sprains and bruises, white swellings, old strains and relaxations, numbness and weakness of the neck, pains of the side, head ache, swelled faces, frozen limbs and every similar complaint. It prevents chilblains or chopped hands, and the ill effects of getting the feet wet.

THE DAMASK LIP SALVE.

THE RESTORATIVE POWDER FOR THE TEETH AND GUMS.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and the foulness, which if suffered to accumulate never fails to injure and finally ruin them.

HAMILTON'S

GRAND RESTORATIVE,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution the immoderate use of tea, frequent intoxication and destructive intemperance, the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

HAMILTON'S ELIXIR,

Celebrated for the cure of colds, obstinate coughs, asthmas, and approaching consumptions, and a certain remedy for the whooping cough.

HAHN'S GENUINE EYE WATER.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

TOOTH ACHE DROPS.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

LEE'S OINTMENT FOR THE ITCH.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

DOCTOR HANDY'S,

WORM DESTROYING

LOZENGES,

A safe and efficacious Medicine for destroying and bringing away

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time. We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.

Doctor CHISHOLMS,

Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

NOW prepared from a recipe of the celebrated *Dr Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates.

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY in Pittsburgh, by
